

Certificate of Analysis

OriCellTM Neuron NCR Protein-Free

Cryopreservation Medium Preparation Date: 2012-4-28 Size: 20ml Catalog No. GUXNR-07021 Lot Number: 120428c01

Kit Components

Containing 20 ml of Neuron NCR Protein-Free Cryopreservation Medium (Cat. No. GUXNR-07021) , pH 7.2~7.4. Store at 4 $^{\circ}$ C.

Sterility

Bacterial and Fungal Contamination: Samples are inoculated and cultured in blood agar plate, thioglycolate broth, tryptocase soy broth and sabouraud dextrose agar. Specification: No growth must be observed.

Mycoplasma: Samples are tested for mycoplasma contamination using a PCR-based assay and direct culture.

Specification: Results must be negative.

Endotoxin: Samples are tested for endotoxin contamination with LAL test. Specification: Results must show ≤ 25 EU/ml.

Cell Recovery Rates Testing

Each batch of cryopreservation medium is performance tested on rat neuron cell. Cryopreservation of rat neuron cells is handled with this cryopreservation medium. Once thawed, the recovery rate of rat neuron cells mesenchynal stem cells is over 70%.

Results: Meet all specifications
